Embedded Software Testing

**HOANA**<sup>TM</sup>  
Safeguarding lives... invisibly

**Life-Saving**

**Accuracy**

**for Patient Vigilance Systems**

The powerful Lifebed<sup>TM</sup> Patient Vigilance System transforms any patient stretcher into an untethered alert network for both cardiac and respiratory functions. Hoana Medical relies on VectorCAST to ensure that Lifebed's software gives nurses and physicians the information they need at the time they need it. Vector Software is proud to support Hoana Medical's commitment to patient safety and improved patient outcomes.
