

**Vector Software Provides Automated Software Test Solution
for NEC's V850 Development Environment**

North Kingstown, RI – December 3, 2007 - Vector Software, Inc., a world leader in the embedded software test tool market, today announced the integration of their VectorCAST test tool with the NEC V850 compiler environment. The joint offering will provide developers using the NEC V850 environment with an automated unit and integration test capability allowing faster time to market with lower cost and better reliability.

Vector Software's VectorCAST™ is a world-class integrated software test solution that automates the tasks associated with testing software components for C/C++, Embedded C++, and Ada83/Ada95 programs. Automation includes: complete test harness construction (stubs and drivers), test generation, test execution, code coverage analysis, regression testing and static measures for code complexity, basis path analysis, and coding standards enforcement. VectorCAST enables companies to significantly reduce the time, effort and cost to validate safety, mission, and business-critical systems.

"At Vector Software, we are committed to delivering the industry-leading verification tools that developers of embedded software applications need," said Bill McCaffrey, director of marketing at Vector Software. "This integration of VectorCAST™ with the NEC V850 compiler environment provides several of our largest customers with the ability to automate unit, integration testing, and code coverage on the NEC v850 chip."

About NEC Electronics

NEC Electronics Corporation (TSE: 6723) specializes in semiconductor products encompassing advanced technology solutions for the high-end computing and broadband networking markets, system solutions for the mobile handset, PC peripherals, automotive and digital consumer markets, and platform solutions for a wide range of customer applications. NEC Electronics Corporation has 25 subsidiaries worldwide including NEC Electronics America, Inc. (www.am.necel.com) and NEC Electronics (Europe) GmbH (www.eu.necel.com). For additional information about NEC Electronics worldwide, visit www.necel.com.

About Vector Software

Vector Software, Inc. is a leading independent provider of automated software testing tools. Vector Software's VectorCAST line of products reduces the burden placed on individual developers by automating and standardizing application-component testing. The VectorCAST tools support the C, C++, Ada83, and Ada95 programming languages.

The market focus of Vector Software is on companies developing embedded systems for aerospace, military, medical, telecom, and process-control applications.

Vector Software's Product Family

VectorCAST/C++
VectorCAST/Ada
VectorCAST/RSP
VectorCAST/Cover
Modified Condition / Decision Coverage (MC/DC) module
DO-178B Qualification Packages
